

Policy on Governing Boards for Military Institutions

(Adopted June 2009)

Background

The Accreditation Standards and Eligibility Requirements require that colleges have a functioning governing board responsible for the quality, integrity, and financial stability of the institution and insure that the mission is carried-out.

Policy

A military institution, with a chain of command structure, authorized and operated by the federal government and which awards degrees has a public board or steering committee. Neither the presiding officer nor a majority of the other members are civilian employees of the military/Department of Defense or active/retired military. Members should represent diverse backgrounds and experiences in which neither the presiding officer nor a majority of the other members are civilian employees of the military/Department of Defense or active/retired military. The board has broad and significant responsibilities to recommend policy, identify the educational, personnel, and financial requirements of the institution, and validates the assignment of the chief executive officer designated as the commander or commandant of the institution.

The presiding officer and a majority of the members have no contractual, employment, or personal or familial financial interest in the institution.
