

Policy Statement on Diversity

*Adopted
January 1994*

How an institution deals with diversity is an important indicator of its integrity and effectiveness. Institutions accredited by the Commission consider diversity issues in a thorough and professional manner. Every institution affiliated with the Commission is expected to provide and sustain an environment in which all persons in the college community can interact on a basis of accepting differences, respecting each individual, and valuing diversity. Each institution is responsible for assessing the quality and diversity of its campus environment and for demonstrating how diversity is served by the goals and mission of the college and district. In addition, institutions must identify the processes that actively promote diversity in the everyday environment and the academic programs of the college. Accreditation teams will evaluate the condition of institutional diversity during the site visits and include findings and recommendations in written reports to the Accrediting Commission.

The Commission Statement on Diversity is designed to guide institutions and evaluation teams in the self-study and site visit process and to indicate how institution-wide reviews of issues of diversity should be documented in the self-study and visiting team reports. The Accrediting Commission, taking into account the mission of the institution and the entirety of the self-study and peer review processes, will evaluate the institution's effectiveness in addressing issues of diversity.
