33	Might be important to note that the federal DE terminology and ACCJC standards have always been about RSI (regular and substantive interaction). The language of "regular effective contact" has been located in California Title 5, which is completely separate from accreditation. (And Title 5 is about to be updated to fully align with federal regulation in this regard, so it will be far less confusing in the future.)	Thanks Jim. Good point. Not all of the colleges in the ACCJC membership are in the California Community College System and the terms are not new for them. Thanks	3/15/2022 13:29	3/15/2022 13:33

34	How often is the training required for faculty, or how long is it considered valid?	We actually don't require training. We used to, but it passed our faculty senate attached to a course release. This worked well for a few semesters, but a budget crisis forced the removal of the course release. However, a large percentage of our online teachers have undergone training (our TOPP training is award-winning—again due to our amazing Instructional Designers).	3/15/2022 13:29	3/15/2022 13:39
